Customer Information

1a. Table of awarded special item numbers

SIN 518210C	Cloud Computing and Cloud Related IT Professional Services
SIN 54151S, 54151SSTLOC	IT Professional Services
SIN 541611, 541611STLOC	Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services
SIN OLM, OLMSTLOC	Order-Level Materials

1b. Prices shown in the pricelist are net. Awarded pricing is provided in the MAS Approved Pricelist section, including separate cloud labor rates under SIN 518210C.

1c. Descriptions of corresponding job titles, experience, functional responsibilities, and education are provided in the Labor Category Descriptions and Substitution Matrix sections.

2 Maximum Order

a. Maximum order for SINs 518210C, 54151S, 54151S STLOC is $500,000
b. Maximum order for SIN 541611, 541611 STLOC is **$1,000,000**
c. Maximum order for SIN OLM, OLM STLOC is **$250,000**

3. Minimum order. **$100.00**

4. Geographic coverage (delivery area). **Domestic**

5. Point(s) of production (city, county, and State or foreign country). **Alexandria, VA**

6. Discount from list, prices or statement of net price. Government net prices (discounts already deducted).

7. Discounts.

a. Quantity: **None**
b. Dollar Volume: **Volume discount of 2% on a Single Purchase or Task Orders at or in excess of $250,000 with a defined delivery date.**

8. Prompt payment terms. **Net 30 days**. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items (list items by country of origin) **None.**

10. Time of delivery. **To be determined between Wilco and the Ordering Activity.**

10b. Expedited Delivery. **Items available for expedited delivery are noted in this price list.**

10c. Overnight and 2-day delivery. **To be determined between Wilco and the Ordering Activity.**

10d. Urgent Requirements. **To be determined between Wilco and the Ordering Activity.**

11. F.O.B. point(s). **Destination**

12a. Ordering address:

Wilco Group, LLC
10 West Walnut Street, Alexandria, VA 22301

12b. Ordering procedures: See Federal Acquisition Regulation (FAR) 8.405-3

13. Payment address:

Wilco Group, LLC
10 West Walnut Street, Alexandria, VA 22301

14. Warranty provision. **Standard Commercial Warranty**

15. Export packing charges, if applicable. **Not Applicable**

16. Terms and conditions of rental, maintenance, and repair (if applicable) **Not Applicable**

17. Terms and conditions of installation (if applicable). **Not Applicable**

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). **Not Applicable**

18b. Terms and conditions for any other services (if applicable) **Not Applicable**

19. List of service and distribution points (if applicable). **Not Applicable**

20. List of participating dealers (if applicab1). **Not Applicable**

21. Preventive maintenance (if applicable). **Not Applicable**

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants) **Not Applicable**

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can he found at www.Section5O8.gov/. **Not Applicable**

23. Unique Entity Identifier (UEI) number. **KZUNDDNUSQN6**

24. Notification regarding registration in System for Award Management (SAM) database.
Contractor IS registered in the SAM database

Labor Category Descriptions

54151S, IT Professional Services

Professional Service	Description	Minimum Education	Minimum Years of Experience
Senior Subject Matter Expert	Develops requirements from a project's inception to its conclusion for a particular IT subject matter area (i.e., simple to complex systems). Assists other project members with analysis and evaluation and with the preparation of recommendations for system improvements, optimization, development, and/or maintenance efforts in the following specialties: information systems architecture; networking; telecommunications; automation; communications protocols; risk management/electronic analysis; software; life-cycle management; software development methodologies; and modeling and simulation.	Bachelor's degree	12 years
IT Project Manager V	Provides direction to project teams; prepares and manages the overall project work plan; plans, organizes, monitors, and oversees IT projects, business strategies, and technology development; manages cross functional teams; understands needs of business users as well as development and service support areas, to include organizational/ strategic planning, strategic financial planning, and business process improvement; defines program and project goals, plans and reports; responsible for all aspects of the development and implementation of assigned projects.	Bachelor's degree	12 years
IT Project Manager III	Provides direction to project teams; prepares and manages the overall project work plan; plans, organizes, monitors, and oversees IT projects, business strategies, and technology development; manages cross functional teams; understands needs of business users as well as development and service support areas, to include organizational/ strategic planning, strategic financial planning, and business process improvement; defines program and project goals, plans and reports; responsible for all aspects of the development and implementation of assigned projects.	Bachelor's degree	5 years
Architect V	Responsible for overall system design or the component design of a large IT system or solution that can include detailed documentation of technical requirements and design documents; works with the development team for the development of applications or systems; facilitates and guides requirements gathering, analysis, development of hypotheses/ conclusions; performs analysis of business models, logical specifications and/or	Bachelor's degree	12 years

Professional Service	Description	Minimum Education	Minimum Years of Experience
	user requirements to design client solutions; has expert knowledge of application design and usability principles, issues, and techniques; focused on IT solutions architecture; organizes the development effort of an IT system solution; responsible for the overall vision that underlies the projected solution and transforms the vision through the execution of the solution. Can include roles such as Application Architect, Portfolio Architect, Network Architect, Systems Architect.		
Architect II	Responsible for system design or component design of a large IT system or solution that can include documentation of technical requirements and design documents; works with the development team for the development of applications or systems; facilitates and guides requirements gathering, analysis, development of hypotheses/ conclusions; performs analysis of business models, logical specifications and/or user requirements to design client solutions; has knowledge of application design and usability principles, issues, and techniques; focused on IT solutions architecture; organizes the development effort of an IT system solution; responsible for the vision that underlies the projected solution and transforms the vision through the execution of the solution. Can include roles such as Application Architect, Portfolio Architect, Network Architect, Systems Architect.	Bachelor's degree	3 years
IT Consultant IV	Leads IT and/or management consulting projects that deliver customer-focused results aligned with strategic and operational goals of the Client; obtains and shares internal and external learning and knowledge, problem solving, strategy, methodologies, tool and processes; facilitates identification, review and analysis of strategic issues and advises regarding development and implementation of strategy for the client's environment; may assist in developing, leading and conducting education classes; provides guidance in analyzing, investigating, and resolving issues; analyzes trends and issues and provides recommendations; responsible for development, implementation, and maintenance of guidelines, policies, procedures, and processes; provides vision and guidance for area of responsibility; provides consultation and vision on process tools, methods, product lines, technology, implementation, support, process design, client initiatives, and business activities; may be required to oversee technical implementation and execution of strategic plans; performs research and	Bachelor's degree	7 years

518210C Cloud Computing and Cloud Related IT Professional Services

Professional Service	Description	Minimum Education	Minimum Years of Experience
Senior Cloud Subject Matter Expert	Provides senior technical guidance for cloud adoption, architecture, modernization, migration, and governance. Develops cloud requirements and modernization roadmaps, evaluates workload suitability, and guides secure design and integration in environments such as AWS GovCloud. Advises on cloud DevSecOps, infrastructure automation, CI/CD, identity integration, observability, and operational readiness. Reviews architecture and security documentation, identifies risks and dependencies, and recommends improvements to cloud reliability and delivery processes.	Bachelor's degree	12 years
Cloud IT Project Manager V	Directs complex cloud modernization, migration, development, and sustainment projects. Establishes cloud delivery plans, milestones, resource assignments, risks, dependencies, and reporting. Coordinates cloud architects, engineers, application teams, security stakeholders, and customer leadership. Oversees Agile planning, tenant onboarding, CI/CD implementation, release coordination, acceptance activities, and transition to cloud operations. Tracks cloud delivery performance and resolves cross-team issues affecting scope, schedule, and quality.	Bachelor's degree	12 years
Cloud IT Project Manager III	Manages assigned cloud implementation and sustainment activities. Maintains cloud work plans, backlogs, milestones, risks, dependencies, and status reports. Coordinates application tenant onboarding, migration tasks, cloud releases, testing, and operational readiness with technical and customer teams. Facilitates Agile ceremonies and tracks actions, deliverables, and customer acceptance for cloud workloads. Supports secure cloud governance and continuous improvement.	Bachelor's degree	5 years
Cloud IT Architect V	Leads architecture and technical design for complex cloud environments and cloud-native applications. Translates mission and security requirements into cloud infrastructure, application integration, identity, deployment, and observability designs. Defines modernization and migration approaches, reusable configurations, hardened templates, infrastructure-as-code patterns, and CI/CD architecture. Guides engineering teams and reviews cloud designs for scalability, maintainability, interoperability, and operational readiness in environments such as AWS GovCloud.	Bachelor's degree	12 years

518210C Cloud Computing and Cloud Related IT Professional Services continued

Professional Service	Description	Minimum Education	Minimum Years of Experience
Cloud IT Architect II	Develops cloud system and component designs under established architecture guidance. Documents cloud requirements, configurations, interfaces, identity integration, and deployment approaches. Assists with workload migration, cloud-native application design, infrastructure automation, CI/CD integration, and observability. Coordinates with development and security teams to implement and verify maintainable cloud solutions and update technical documentation.	Bachelor's degree	3 years
Cloud IT Consultant IV	Leads cloud technical consulting and implementation activities for adoption, modernization, migration, and sustainment. Analyzes cloud delivery and operational issues and recommends implementation approaches. Guides DevSecOps integration, CI/CD pipelines, infrastructure automation, GitOps practices, application onboarding, and cloud governance processes. Develops cloud procedures and technical guidance, coaches application teams, and coordinates resolution of complex cloud integration and deployment issues.	Bachelor's degree	7 years
Cloud IT Consultant III	Performs cloud consulting, engineering, and implementation activities for modernization, migration, and operations. Supports cloud requirements analysis, application integration, automated deployment workflows, infrastructure-as-code configuration, and tenant onboarding. Investigates cloud deployment and operational issues, documents recommendations and procedures, and supports DevSecOps and governance activities. Collaborates with customer and application teams to improve cloud delivery consistency.	Bachelor's degree	5 years
Cloud IT Consultant II	Supports cloud implementation, migration, and sustainment under senior technical direction. Assists with cloud requirements documentation, configuration changes, deployment workflows, testing, and application onboarding. Collects cloud operational information, investigates assigned issues, updates technical procedures, and supports infrastructure automation and CI/CD activities. Coordinates with application teams and follows established cloud security, quality, and change-control practices.	Bachelor's degree	3 years

518210C Cloud Computing and Cloud Related IT Professional Services continued

Professional Service	Description	Minimum Education	Minimum Years of Experience
Cloud IT Analyst IV	Leads analysis of cloud requirements, modernization dependencies, delivery processes, and operational performance. Develops cloud metrics, dashboards, status reports, and recommendations for leadership. Analyzes application migration readiness, tenant onboarding requirements, cloud governance workflows, observability information, and security documentation needs. Maintains cloud risks, dependencies, and requirements traceability and recommends improvements to cloud service delivery and management.	Bachelor's degree	7 years
Cloud IT Analyst III	Analyzes and documents cloud project requirements, operational information, and implementation activities. Supports cloud backlog development, user stories, migration planning, tenant coordination, and performance reporting. Maintains cloud dashboards, action records, risks, dependencies, and governance documentation. Reviews cloud delivery and operational trends and supports recommendations for improved reliability, quality, and customer visibility.	Bachelor's degree	5 years
Cloud Database Administrator IV	Administers databases supporting cloud-hosted applications and cloud modernization efforts. Implements cloud database schemas and configurations, supports database migration and integration, and manages approved upgrades and configuration changes. Analyzes cloud database availability and response times, resolves data and application integration issues, and maintains database technical documentation. Coordinates with cloud architecture, application, and security teams on data access controls and operational requirements.	Bachelor's degree	7 years
Cloud Quality Assurance Manager III	Establishes and maintains quality assurance processes for cloud applications, infrastructure configurations, and automated delivery workflows. Plans reviews and testing across cloud development, migration, release, and sustainment activities. Coordinates quality checks in cloud CI/CD pipelines, documents defects and acceptance results, and tracks quality metrics and trends. Evaluates cloud technical documentation and release readiness and supports customer acceptance using approved test procedures.	Bachelor's degree	5 years
