

PEOPLE | SOLUTIONS | MISSION IMPACT

MISSION SUCCESS. DELIVERED.

Digital modernization, program execution, and data-driven decision support for federal agencies.

Wilco Group is an award-winning Woman-Owned Small Business and SBA 8(a) firm founded in 2010, helping federal agencies modernize systems, streamline operations, strengthen mission delivery, and achieve measurable outcomes.

SELECTED MISSION IMPACT

SOLVING COMPLEX CHALLENGES FOR A STRONGER TOMORROW.

MODERNIZE SYSTEMS AND TECHNOLOGY

Upgrade legacy systems, accelerate cloud adoption, and deliver secure, scalable solutions that improve mission performance.

STRENGTHEN PROGRAM EXECUTION AND GOVERNANCE

Improve accountability, accelerate delivery, and build sustainable programs that achieve measurable results.

TURN DATA INTO ACTIONABLE DECISIONS

Transform data into clear insights that inform strategy, optimize operations, and support better outcomes.

OUR CAPABILITIES

PEOPLE. PROCESSES. TECHNOLOGY. LASTING IMPACT.

DIGITAL TRANSFORMATION & MODERNIZATION

- Custom applications and software development
- Low-code solutions and COTS implementation
- Cloud development and migration
- DevSecOps and CI/CD
- Microservices architecture and systems integration
- Authority to Operate (ATO) support

DATA & ANALYTICS

- Data transformation and analysis
- Reporting and visualization
- Data-level security and governance
- AI, ML, RPA, and NLP solutions
- Performance management
- Trend analysis and predictive insights

PROGRAM & PROJECT MANAGEMENT

- Agile and PMBOK-based delivery
- Product value measurement and outcomes tracking
- Roadmap development and implementation
- Risk, issue, and dependency monitoring
- Communications and stakeholder engagement
- PMO support and agile coaching

STRATEGIC ADVISORY & OPERATIONS

- Strategic planning and portfolio alignment
- Governance and operating model development
- Business process optimization and efficiency
- Organizational change management
- Customer experience and service delivery improvement
- Performance management tracking and analysis

TRUSTED BY FEDERAL AGENCIES

MISSION IMPACT. PROVEN.

Representative case studies demonstrating how Wilco Group helps federal agencies modernize systems, improve execution, and achieve measurable outcomes.

These examples reflect Wilco's work across modernization, data analytics, program execution, and strategic advisory support for federal agencies.

DEVSECOPS & CLOUD TRANSFORMATION

CHALLENGE

FEMA needed a modern cloud platform that improved speed, security, compliance, and operational efficiency.

WHAT WILCO DID

- Supported an AWS GovCloud shared environment for modernization efforts.
- Integrated DevSecOps guidance, automated testing, continuous vulnerability scanning, and CI/CD improvements.
- Streamlined onboarding, observability, and ATO-related processes for cloud tenants.

RESULTS / IMPACT

- 25% reduction in development cycle times.
- Vulnerabilities identified far earlier in the lifecycle, improving security and compliance.
- Better collaboration and lower operational burden through automation.

DATA ANALYTICS & SCALED AGILE IMPLEMENTATION

CHALLENGE

FEMA needed improved cross-team coordination, visibility, and performance measurement to support mission execution.

WHAT WILCO DID

- Helped stand up Agile Release Trains (ARTs) with cross-functional participation.
- Implemented SAFe-oriented ways of working, cadences, and dashboards using Jira and Confluence.
- Applied metrics tied to feature delivery, velocity, and business outcomes.

RESULTS / IMPACT

- Stronger alignment between delivery teams and mission priorities.
- Improved transparency, coordination, and progress tracking.
- Better data-driven decision support for leadership.

DIGITAL TRANSFORMATION & IT MODERNIZATION

CHALLENGE

FEMA's National Flood Insurance Program (NFIP) relied on a 30+ year-old mainframe environment with complex legacy processes and data issues.

WHAT WILCO DID

- Supported a multi-year modernization effort for the NFIP Pivot program.
- Led stakeholder engagement, requirements documentation, SELC support, and roadmap development.
- Helped define testing strategies, agile support, and performance tracking.

RESULTS / IMPACT

- Supported replacement of the legacy environment and transition to modern capabilities.
- Improved alignment among stakeholders, systems, and operational needs.
- Contributed to a modernization effort that ultimately achieved full operating capability and DHS Program of the Year recognition in 2020.

STRATEGIC PLANNING, COORDINATION & EXECUTIVE COMMUNICATIONS

CHALLENGE

USPTO needed clearer prioritization and portfolio planning across dozens of systems and an annual budget exceeding \$300M.

WHAT WILCO DID

- Organized portfolio priorities and connected initiatives to business objectives.
- Supported executive decision-making, prioritization, and governance.
- Helped define metrics and traceability from investments to mission outcomes.

RESULTS / IMPACT

- Created clarity in portfolio planning and prioritization.
- Stronger alignment between business, IT, and executive stakeholders.
- Improved basis for reviewing progress, funding tradeoffs, and expected value.

OPERATIONS & MAINTENANCE

CHALLENGE

USDA's Risk Management Agency required reliable sustainment, security, user support, and peak-season performance for its modernized crop insurance system.

WHAT WILCO DID

- Engaged with stakeholders to prioritize requirements for major enhancements.
- Led modernization of a significant system module.
- Supported proactive monitoring and performance optimization.
- Helped strengthen security, compliance, and user support processes.

RESULTS / IMPACT

- Improved reliability and responsiveness of ongoing operations.
- Helped maintain secure, compliant system performance.
- Supported continuous improvement after modernization.

WHY CLIENTS TRUST WILCO

DEEP FEDERAL EXPERIENCE

Proven track record across federal agencies and complex missions.

MISSION-FOCUSED DELIVERY

Solutions aligned to agency goals and real-world outcomes.

STRUCTURED EXECUTION

Disciplined, agile approach to deliver measurable results.

MEASURABLE OUTCOMES

Tangible impact that advances mission success.
